PROFESSIONAL SUMMARY

Recent Computer Science graduate with hands-on experience in system analysis and web development through academic projects and professional website development. Experienced in analyzing requirements, designing workflows and databases, creating wireframes, and developing web applications. Seeking an entry-level opportunity in technology and open to growing in software development, system analysis, and related technical roles.

TECHNICAL SKILLS

Programming: PHP, JavaScript, SQL, HTML, CSS

Frameworks & Technologies: React.js, Node.js, Express.js, WordPress

Database: MySQL

System Analysis & Design: Requirement Analysis, Use Case Diagram, Activity Diagram, ER Diagram, Database Design, Wireframing

Tools: Figma, Draw.io, Trello, GitHub, Postman

PROJECTS

Saba Cat Hotel Reservation Management System (Final Year Project – Individual)

Role: System Analyst & Developer

- Analyzed business processes and defined system requirements for booking, room management, cancellation, and refund workflows.
- Designed Use Case, Activity, and ER diagrams along with database schema and wireframes.
- Developed a web application using PHP, MySQL, HTML, CSS, and JavaScript.

E-Commerce Website (Workshop Project)

- Developed an e-commerce web application using React.js, Node.js, Express.js, Prisma, and MySQL.
- Implemented product browsing and filtering features.
- Integrated Cloudinary for image management.

EXPERIENCE

WordPress Developer (Internship → Full-time)

Keng Web Partnership Limited | Jun 2025 – Jan 2026

- Developed and customized WordPress websites using Elementor Pro, ACF, and WPCode.
- Analyzed requirements from tasks and client feedback to plan and implement website features.
- Collaborated with the team, revised work through review cycles, and created documentation for client handover.

EDUCATION

Bachelor of Science in Computer Science

Kasetsart University | Graduated 2025
